I must provide an update to this group.

1. Today I was informed that Mark not only stood by his public statement of my quote, he also told Jeff Cohen that my conversation with Andrea was **recorded**. If this is true, I am asking for a copy of the recording. Additionally, I am asking for my statement allowing and agreeing to be recorded.
2. Until this is resolved, I will be instructing all appointed town officials to cease all communication with the PI.
3. Again I will bring to your attention my comments from yesterday demonstrating the PIs intent to harm town officials.

I want to also raise to the SB's attention your article on Fats, Oil and Grease where you state that "two other restaurant owners on Main and Court Streets declined to comment citing fear of retaliation from town officials". Did you do any research to determine there was some evidence to suggest retaliation?

4. How can the PI print blantant unfounded statements without any type of research? Is this the type of journalism the town wants? A paper that dvides us and creates hate? Perhaps it is. The half of dozen threats that I received over the past 48 hrs would certainly suggest so.

Derek Brindisi, ICMA-CM
Town Manager
Town of Plymouth
26 Court Street
Plymouth, MA 02360
